🎯 Executive Summary & Milestones

- Security & Governance: Hardened system security with Role-Based Access Control (RBAC), IP Whitelisting, NextAuth authentication across core services.
- External Integrations: Integrated Meta Graph API (Social Media Optimization), Automated Email Workers for automated workflows and data synchronization.
- Frontend & Dashboards: Built interactive product demo pages, item-wise financial statement reports, role-aware admin navigation.
- Delivery Velocity: Successfully completed 45 updates across 11 repositories.

🚀 What Changed & What Was Updated

🚀 Core Features & Capabilities

7 updates

github-work-reporting	Add GitHub Work Reporter desktop app and CLI reporting tool	88890f5
rdg-next	Ignore txt files	3c6d75e
rdg-next	Ignore all txt files in gitignore	c3f1b55
start_tag	Add Zustand cart store with persistence and update remote image domains	7b4fa3b
Life-Care	Add lexical editor, blog management, and client appointment booking features	b8ac41c
hwd	Add build manifest for CSS and JS assets	93941d1
jamee-ui-all	Add client and server-side conversion tracking for Meta and Google Ads	c5bbb12

🛡️ Security & Access Control

6 updates

rdgboos	Add Google Sheet integration, IP whitelist login security, and user management features	0a37349
rdgboos	Add lead management API routes, UI components, and RBAC utilities	a47ca1b
rdgboos	Implement department-based RBAC scoping, audit logging, and related API routes	3a11937
rdgboos	Add Meta portfolio integration, RBAC, and marketing management endpoints	33bb29f
rdgboos	Implement user management APIs, RBAC system, and NextAuth configuration	9224ce8
rdg-next	Add case study public views, admin management interface, and RBAC support	43fc0d2

🔌 External Integrations & Services

9 updates

rdgboos	Implement lead management features including bulk operations, Meta integration, and lead table UI	613c70a
rdgboos	Add Meta Graph API integration service, database models, and dashboard routes for social media management	db9b258

rdgboos	Add social media optimization (SMO) module with scheduling, analytics, and role management	c65ff59
rdgboos	Add dashboard views, components, and API integration for contacts, departments, and leads	dd455e2
start_tag	Add interactive live demo page, reviews system, email worker, and product components	01583d8
start_tag	Implement core e-commerce features including product pages, cart checkout, and Cashfree payment integration	570bd82
bla-tech-ui	Add distributor pages, map integration, and application management API	dd7a3d6
bla-tech-ui	Update Google Tag Manager script integration	07d94e7
jamee-ui-all	Add client-side event tracking utility for Meta Pixel and Google integration	1650fd6

🎨 UI / UX & Frontend Dashboards

20 updates

SGEPC_ADMIN_UI	Add master summary report page and api route with mongodb support	c645b78
SGEPC_ADMIN_UI	Add item-wise statement report page with filters and server aggregation	9b0b841
SGEPC_ADMIN_UI	Add master summary reporting API route and frontend page	e0df580
rdg-next	Add AdminSidebar component with role-based navigation and live badge counters	b9717ad
rdg-next	Add contact form component and thank you page implementation	ad560e5
rdg-next	Create admin leads page with management and filtering capabilities	e9f84b0
rdg-next	Implement admin dashboard and backend API routes for managing leads, applications, and statuses	44a37e1
rdg-next	Add contact and growth form components along with analytics conversion tracking	376da54
rdg-next	Add career, case study, news, blog, and contact pages with corresponding forms and components	180d364
rdg-next	Add administrative blog, news, portfolio, jobs, leads, and users management pages with bulk actions and API routes	e7deea6

rdg-next	Implement admin dashboard with user management, job applications, portfolio, and blog routing	64e872f
start_tag	Add StarTagProduct component with interactive multi-pet configuration and media gallery	fcb4544
bla-tech-ui	Add career listing and dynamic job detail pages with SEO metadata	a13f81f
website	Add frontend components, pages, and global styling for website module	b849986
Life-Care	Add Footer and Contact public pages with associated layout components	e58cf46
Life-Care	Initialize client and server infrastructure with core layouts and controllers	4bedf0d
Life-Care	Add zero-scroll MainLayout, AnxietyTest, and AssessmentDetail clinical screening framework	f3ccf47
Life-Care	Add comprehensive assessments data hub and detail page component	6158420
Life-Care	Add assessments hub, detail pages, runner modal, and navigation components	4f63849
jamee-ui-all	Add cart, checkout, and payment pages with coupon support	af0776d

Backend & API Architecture

3 updates

rdg-next	Add comprehensive admin API routes, models, and UI for managing content, jobs, and audit logs	ed1c667
Server_SGEPC	Initialize initial models, services, repositories, and controllers for admin backend	7dcced9
jamee-ui-all	Add client-side tracking module for e-commerce analytics and CAPI dispatch	57a7207

🧪 QA & Test Verification Checklist (What to Test)

- [ ] Verify financial statement and summary report pages in [SGEPC_ADMIN_UI]: test date filters and server aggregation accuracy.
- [ ] Test contact/lead submission form in [rdgboos]: test validation errors, successful submit, and thank you page redirect.
- [ ] Test IP Whitelist login protection in [rdgboos]: confirm authorized IPs log in successfully and unauthorized IPs receive 403 Forbidden.
- [ ] Test Google Sheets automated sync in [rdgboos]: verify data rows synchronize accurately upon form or lead submission.
- [ ] Verify Role-Based Access Control (RBAC): test user roles and department boundaries in [rdgboos] to ensure restricted actions are blocked.
- [ ] Test Meta Graph API integration in [rdgboos]: verify social media scheduling, token refresh, and analytics metrics.
- [ ] Verify NextAuth authentication flow in [rdgboos]: test session creation, token persistence, and logout behavior.
- [ ] Verify Role-Based Access Control (RBAC): test user roles and department boundaries in [rdg-next] to ensure restricted actions are blocked.
- [ ] Validate AdminSidebar in [rdg-next]: verify role-based navigation links and live counter badges.
- [ ] Test contact/lead submission form in [rdg-next]: test validation errors, successful submit, and thank you page redirect.
- [ ] Verify interactive demo page in [start_tag]: test multi-pet configuration switching and media gallery responsiveness.
- [ ] Test background email worker in [start_tag]: ensure confirmation and notification emails are dispatched reliably.
- [ ] Test distributor locator page in [bla-tech-ui]: verify interactive map rendering and application management API.
- [ ] Test IP Whitelist login protection in [bla-tech-ui]: confirm authorized IPs log in successfully and unauthorized IPs receive 403 Forbidden.

- [ ] Validate AdminSidebar in [Life-Care]: verify role-based navigation links and live counter badges.
