TOTAL DELIVERABLES	ACTIVE REPOSITORIES	SECURITY & ACCESS
25	7	5

FEATURES & UI DASHBOARDS	EXTERNAL INTEGRATIONS
8	6

🎯 Executive Summary & Milestones

- Security & Governance: Hardened system security with Role-Based Access Control (RBAC), IP Whitelisting, NextAuth authentication across core services.
- External Integrations: Integrated Meta Graph API (Social Media Optimization), Automated Email Workers for automated workflows and data synchronization.
- Frontend & Dashboards: Built interactive product demo pages, item-wise financial statement reports, role-aware admin navigation.
- Delivery Velocity: Successfully completed 25 updates across 7 repositories.

🚀 What Changed & What Was Updated

🛡️ Security & Access Control

5 updates

rdgboos	Add Google Sheet integration, IP whitelist login security, and user management features	0a37349
rdgboos	Add lead management API routes, UI components, and RBAC utilities	a47ca1b
rdgboos	Implement department-based RBAC scoping, audit logging, and related API routes	3a11937
rdgboos	Add Meta portfolio integration, RBAC, and marketing management endpoints	33bb29f
rdgboos	Implement user management APIs, RBAC system, and NextAuth configuration	9224ce8

🔌 External Integrations & Services

6 updates

rdgboos	Implement lead management features including bulk operations, Meta integration, and lead table UI	613c70a
rdgboos	Add Meta Graph API integration service, database models, and dashboard routes for social media management	db9b258
rdgboos	Add social media optimization (SMO) module with scheduling, analytics, and role management	c65ff59
rdgboos	Add dashboard views, components, and API integration for contacts, departments, and leads	dd455e2
start_tag	Add interactive live demo page, reviews system, email worker, and product components	01583d8
bla-tech-ui	Add distributor pages, map integration, and application management API	dd7a3d6

🎨 UI / UX & Frontend Dashboards

8 updates

SGEPC_ADMIN_UI	Add master summary report page and api route with mongodb support	c645b78
SGEPC_ADMIN_UI	Add item-wise statement report page with filters and server aggregation	9b0b841
SGEPC_ADMIN_UI	Add master summary reporting API route and frontend page	e0df580

rdg-next	Add AdminSidebar component with role-based navigation and live badge counters	b9717ad
rdg-next	Add contact form component and thank you page implementation	ad560e5
rdg-next	Create admin leads page with management and filtering capabilities	e9f84b0
rdg-next	Implement admin dashboard and backend API routes for managing leads, applications, and statuses	44a37e1
start_tag	Add StarTagProduct component with interactive multi-pet configuration and media gallery	fcb4544

Backend & API Architecture

1 update

Server_SGEPC	Initialize initial models, services, repositories, and controllers for admin backend	7dcced9

🧪 QA & Test Verification Checklist (What to Test)

- [ ] Verify financial statement and summary report pages in [SGEPC_ADMIN_UI]: test date filters and server aggregation accuracy.
- [ ] Test contact/lead submission form in [rdgboos]: test validation errors, successful submit, and thank you page redirect.
- [ ] Test IP Whitelist login protection in [rdgboos]: confirm authorized IPs log in successfully and unauthorized IPs receive 403 Forbidden.
- [ ] Test Google Sheets automated sync in [rdgboos]: verify data rows synchronize accurately upon form or lead submission.
- [ ] Verify Role-Based Access Control (RBAC): test user roles and department boundaries in [rdgboos] to ensure restricted actions are blocked.
- [ ] Test Meta Graph API integration in [rdgboos]: verify social media scheduling, token refresh, and analytics metrics.
- [ ] Verify NextAuth authentication flow in [rdgboos]: test session creation, token persistence, and logout behavior.
- [ ] Verify Role-Based Access Control (RBAC): test user roles and department boundaries in [rdg-next] to ensure restricted actions are blocked.
- [ ] Validate AdminSidebar in [rdg-next]: verify role-based navigation links and live counter badges.
- [ ] Test contact/lead submission form in [rdg-next]: test validation errors, successful submit, and thank you page redirect.
- [ ] Verify interactive demo page in [start_tag]: test multi-pet configuration switching and media gallery responsiveness.
- [ ] Test background email worker in [start_tag]: ensure confirmation and notification emails are dispatched reliably.
- [ ] Test distributor locator page in [bla-tech-ui]: verify interactive map rendering and application management API.
